Bag Size Options

Bag-In-Box (BIB)

From 3 to 50 Litres – Single & webbed bags

A complete range of bags for bag-in-box, available from 3 to 50-litre sizes. Suitable for efficient filling and dispensing of fresh, ESL (extended shelf life) and aseptic liquid food and non-food products.

Bags are available in different barrier choices and with several fitment types, ideal for catering, food service and retail distribution.

Drum Bags

220 Litres

220 litre multilayer bags are available in standard sizes for cylindrical or conical drums.

The range encompasses bags with different types of spouts, from 1" to 3", for the most common aseptic filler machines in the market. Bags with drain spouts can be supplied on request.

Large Bags

From 1000 up to 1500 Litres

Large bags are available in the sizes for most regular IBC containers available in the market (such as plastic, metal or polypropylene containers).

The range encompasses bags with different types of spouts, from 1" to 3", suitable for the main aseptic filler brands. Bags with drain spouts and aseptic discharge valves can be supplied on request.

These bags are available in all sizes, both in Aseptic & Non-Aseptic variations.

Spouts and fitments

We offer a wide range of injection-moulded spouts and fitments that cater to both aseptic and non-aseptic fillers, ensuring they meet specific application requirements.

Our selection includes a variety of fitments and spout options available in sizes of 1, 2, or 3", with an option of multiple fitments to be applied to each bag. One-inch spouts are recommended for juices, concentrates, paste, and pulp. Two and three-inch spouts are recommended for quality retention of diced products as well as for high-speed filling. Additionally, our easy open screw caps solution is ideal for the foodservice and consumer market.
